Scoring Committee Procedures for Review of Applications

- Each district has one (1) representative resulting in a committee of ten members. In addition, ad hoc representatives may be requested as needed based on the number of applications.
- Two representatives score each applicant's submission. In case of a disagreement between scorers, a third reader will score the submission.
- Either the Coordinator or a representative of the scoring committee will record minutes of the scoring meetings.
- At the completion of the scoring process, candidates who have received the Master Teacher designation will be notified by the District Advisory Committee contact, their application materials will be returned to the district contact, and their name will be added to the webpage list of successful Master Teacher candidates.
- Candidates who do not achieve Master Teacher status will receive summary comments on the sections of their application that did not meet the Master Teacher criteria and notification as to which portions of the application met the Master Teacher criteria.
- In the cases where portions of the candidate's application meet the Master Teacher criteria and portions do not, scores for the portions of the application that meet the criteria will be banked for the candidate provided the applicant resubmits his/her application within a year of their first application. When a candidate resubmits, their entire application will be reviewed and scored as if it were a new application but the "banked scores" will be used in making the final determination on Master Teacher status.
- The original scoring rubrics will be shredded at the end of the scoring session.
- The Coordinator will maintain scoring records for the consortium.

LPDC Recommendation

- The Master Teacher Consortium recommends that LPDCs grant three CEUs or 30 contact hours for a candidate who submits an application and is scored exemplary in at least two of the five areas. For these individuals, an additional three CEUs or 30 contact hours will be given if they successfully earn the Master Teacher designation at a later time.
- A candidate who submits an application and is scored exemplary in at least four of the five areas thereby successfully earning the initial Master Teacher designation should be granted 6 CEUs or 60 contact hours.
- The Master Teacher Consortium recommends that LPDCs grant two CEUs or 20 contact hours for a candidate who successfully renews their Master Teacher Designation.

- Additional contact hours can also be given to individuals who attend the professional development opportunities on preparing the Master Teacher application.

Appeals

- An appeal may be made by an applicant who believes that the processes and procedures outlined in the application packet were not followed. No appeals will be considered based on scoring of a candidate's application.
- The appeals process involves a meeting of the Scoring Committee and Advisory Committee members to review the manner in which the implementation of the processes and procedures was managed and to resolve the appeal with the applicant. The decision of the joint Scoring Committee and the Advisory Committee is final. No appeals may follow.

Records

- Evidence pieces will be returned to the applicant. Any teacher who receives the Master Teacher designation is responsible for keeping the evidence intact for the five-year duration of the Master Teacher status in case of an audit by ODE.
- For those receiving Master Teacher status, the candidate's score report and a copy of the narrative portion of the application will be kept on file in the district of employment.
- Score reports will also be maintained by the Program Coordinator.
- For those successfully completing the Master Teacher program, a certificate will be issued with the returned portfolio for use in the licensure process.

Renewal Guidelines

Renewal candidates may choose either Year Four or Year Five of their Master Teacher designation to complete the renewal process. If a Master Teacher successfully renews his/her designation during Year Four, his/her renewal status does not take effect until their current five-year designation expires.

Candidates for renewal should follow the style guidelines in this document for writing and assembling their narrative and evidence. Note however, the renewal application is limited to four total pages when completing Section III and three pieces of annotated evidence for Section IV. The following documents should be submitted for renewal of the Master Teacher Designation.

- Master Teacher Renewal Checklist
- Master Teacher Renewal Application
 - Section I: Candidate Information

- Section III: Written Reflections for Criteria A and E
- Section IV: Evidence of Professional Growth for Criterion B (Focused Collaboration), Criterion C (Focus on Students and Environment), and Criterion D (Focus on Content, Instruction, and Assessment).

Master Teacher renewal documents and additional guidance documents are available at <http://www.ode.state.oh.us>. Enter the words *Master Teacher* in the search box.

If the applying Master Teacher is deemed *not successful* during the renewal process, the teacher shall receive written feedback and an opportunity to reapply if their current Master Teacher designation has not expired.

In the event that a candidate is not successful in renewing Master Teacher designation before the expiration of a Senior Professional Educator License or Lead Professional Educator License, the candidate will not be able to renew a license that requires successful completion of the Master Teacher Program. In this case, the teacher will need to apply for a Professional Educator License if applicable.

Licensure

Earning the Master Teacher designation is only one step necessary to hold a Senior Professional Educator License or a Lead Professional Educator License. In addition to having the Master Teacher designation, a teacher must also have the additional years of experience and a master's degree or higher from an institution of higher education accredited by a regional accrediting organization.

Requirements for the Senior Professional Educator License

- Master's degree from an institution of higher education that is accredited by a regional accrediting organization or an equivalent accreditation if the degree was completed outside the United States.
- Nine years of experience under a standard teaching license or certificate, of which at least five years are under a professional/permanent license/certificate; and
- Demonstration of effective practice at the *accomplished* or *distinguished* level of performance as defined in the Ohio Standards for the Teaching Profession; specifically, by successful completion of the Master Teacher portfolio and designation as a Master Teacher.

Requirements for the Lead Professional Educator License

- Master's degree from an institution of higher education that is accredited by a regional accrediting organization or an equivalent accreditation if the degree was completed outside the United States.
- Nine years under a standard teaching license or certificate, of which at least five years are under a professional/permanent license/certificate or Senior Professional Educator License; and
- Demonstration of effective practice at the *distinguished* level of performance defined in the Ohio Standards for the Teaching Profession; specifically, by holding active National Board Certification, OR, successful completion of the Master Teacher portfolio with the designation as a Master Teacher *and* by holding the Teacher Leader Endorsement.

Consistently High Performing Teacher

Certain educators with professional, lead professional or senior professional teaching licenses may not need to complete additional coursework or equivalent continuing education credits to renew their educator licenses. An educator who meets the State Board of Education's definition of consistently high-performing teacher is exempt from the requirement to complete any additional coursework for the renewal of a professional educator license for the next renewal cycle.

Each local professional development committee will indicate whether or not an applicant meets the eligibility criteria for the consistently high-performing teacher designation as they review professional licensure renewal requests.

Eligibility criteria

During the current licensure cycle, a consistently high-performing teacher has:

1. Received the highest final summative rating on evaluations, as defined by Revised Code sections 3319.111 and 3319.112 where applicable, for at least four of the past five years; and
2. Met at least one of the following additional criteria for at least three of the past five years:
 - Held a valid senior or lead professional educator license;
 - Held a locally recognized teacher leadership role that enhances educational practices by providing professional learning experiences at a district, regional, state or higher education level;
